TO: Mr. J. C. Bowling June 30, 1970

FROM: H. Wakeham

SUBJECT: Memo from Mr. Weissman on "Less Tar and Nicotine" dated May 21, 1970

Mr. Resnik has passed on to me a copy of Mr. Weissman's memo. In it there is marked the interest in a record of statements by anti-cigaret advocates regarding the benefits to be obtained with lower tar and nicotine in the product. Mr. Resnik inquires as to whether or not search of such statements could be made through the R & D library.

It is my impression that statements of this type are completely and extensively documented and catalogued in the Ad Hoc Legal Committee Computer Project Access File. We do not have the cards or the coding which would permit us to make such a search. I understand that Mr. Holtzman does. I would suggest that possibly he might carry out the search with greatest dispatch and efficiency.

H Wakeham
